

Broadband Protect

Secure and reliable business grade connection,
supported by IT experts 24/7

Millions of Routers at Risk

Millions of people in the UK are at risk by using insecure routers.

Many of us simply use the routers supplied by our Internet Service Provider and don't give this a second thought. However, as we have come to rely on internet connectivity for both work and leisure, this may be worth a few minutes of your time to reconsider.

Chess Broadband Protect offers new technologies to maximise the performance of your business, as well as keeping you secure and supported.

Key Benefits of Broadband Protect

Always Connected
and Secure

Round the
Clock Support

Better Brand
Protection

Maximise your
Business Performance

£12 billion

the cost of internet
downtime to
UK businesses

Whats Included

Technicolor DGA4134 Router

Equipped with the latest Wi-Fi 6 technology, the DGA4134 performs better in a multi-user environment with an improved battery lifetime.

Enhanced Care SLA

We want to ensure that any connection issues are resolved quickly. To aid that, we apply Enhanced Care, speeding up the process of fault identification and resolution.

WiFi-6 Technology

Wi-Fi 6 increases your signal to accommodate more devices and allow better sharing of the wireless channel, with reduced interference between neighbouring routers.

Hardened Router

The Broadband Protect router has been security assured by Chess' expert penetration testers.

24/7 Support

Our UK-Based support team is on hand 24 hours a day to help you with your connection, making sure your business can always be productive anywhere anytime.

Latest Secure Firmware

Our Technology Refresh ensures your router is always current and supported, with the latest firmware updates applied direct to your device.

Management and Monitoring

We use state of the art software platforms to manage and monitor your connection. Ensuring your device is always up to date to maximise it's performance and security.

WiFi-6 Support

The latest wireless standard and incorporates a number of security enhancements to safeguard your data.
