The Supplier's ability to provide the Cloud PBX Service is subject to the current supplier porting the Ported Number to the Supplier. The Supplier shall not be liable if there are any issues with the availability, suitability or any other issue with the Cloud PBX Service caused by a failure to transfer unless such failure is due to the Supplier's error or omission.

4.25 The Customer understands and accepts that all services linked to the original number will be automatically terminated upon completion of the number porting including, but not limited to broadband service, Redcare Alarm, Fax, PDQ & Franking machines and monitoring services such as alarms and utility

meters. Other services such as, but not limited to, 1571/Call Minder, Call Barring and Call Diversion will also be ceased. Any messages left via the 1571/Call Minder service will be lost. 4.26 The Customer shall cover any potential contract termination charges which may arise from the termination of the Customer's contract with its existing supplier.

4.27 The Customer accepts that Number Porting is governed by regulation and is managed by multiple carriers and telecommunications operators and as a result the Supplier has no control over the duration nor outcome of the process. The Supplier shall not be required to notify the Customer of this internal network change nor seek the Customer's consent.

4.30 On contract termination, any telephone numbers still required by the Customer that are listed under this Agreement must be ported from the Supplier within three (3) months of the date of termination. After this date any remaining numbers will be de-activated, removed from MyPortal and will no longer be available for porting.

SERVICE FAULTS

4.31 The Supplier shall provide and manage the Cloud PBX Services in accordance with **Schedule 4.1 (Fault Management Connectivity)**, which sets out the Supplier's notification procedure for Service Faults together with its Service Fault Targets.

4.32 Service Levels specific to the Cloud PBX Services and in addition to those set forth in paragraph 4.31 above (if any) shall be set forth in paragraph 10 below and where there is a conflict between **Schedule 4.1 (Fault Management Connectivity)** and paragraph 10, the latter shall prevail.

SCHEDULE 3.4(A) – CLOUD PBX SERVICES

- Services can adversely affect the ability to make calls. The Customer shall not therefore make any changes to the configuration of the voice and data components of the Services unless the Customer has been provided with consent to do so by the Supplier.
- 5.5 In the event that the Customer is provided with consent and access to the Service in order to make changes to its configuration the Customer shall be liable for any changes that it makes to the Services and the Supplier shall not be liable for any adverse effects suffered as a result of the Customer's configuration of the Services. Any work carried out by the Supplier to rectify the Services following such configuration by the Customer shall incur a charge from the Supplier based on the time and materials taken to remedy such issue.

The Supplier will not be liable for any claims, losses, costs or expenses that occur as a result of the Customer changing the voice and data components of the Services that result in an inability to call Emergency Services.
- 6.3 A configuration change of the voice and data components preconfigured by the Supplier can adversely affect calls to Emergency Services. The Customer acknowledges that an Emergency Call made via Cloud PBX Services in a different location from the one that is registered in Order Form, is transmitted to the control centre indicating the registered Site and not the location of the Cloud PBX Services and can therefore mean that any Emergency Services response will be sent to an incorrect location.
